

Z Operations Solutions Your Partner in Operations Improvements

Howard Zwick – Principal Consultant

Put Howard's 25+ years of corporate and operations experience in a range of companies, industries and job roles to work to help

improve your manufacturing or distribution business.

Howard has held leadership roles in Employee Health and Safety, Manufacturing Operations, Quality Assurance, Production Planning and ERP system implementations while working closely with factories throughout the US, Asia and Europe.

At Z Operations Solutions, Howard helps his manufacturing and distribution clients improve employee health and safety, safety culture, production planning, inventory management, use of their ERP system, employee development and business processes.

Howard is based in the Greater Philadelphia area and works with clients in the region and throughout the US & world.
